Abstracts Submittal Deadline: **30 May 2008**

Dear Member,

The Conference Program Committee is working hard on the organisation of the upcoming 3rd IAASS conference "*Building a Safer Space Together*" which will be held in Rome (Italy) in the period 21-23 October 2008. We will have a prestigious and unique venue, *Palazzo Salviati* (address: Via Della Lungara 82), right in the center of Rome across the Tiber river. From

there you will enjoy one of the most beautiful postcard scenery of the *Eternal City*. This renaissance palace was built in the period 1520-1568 by cardinal Giovanni Salviati.

Currently the building is the seat of CASD (Center for Advanced Defence Studies) and has been made available to IAASS through the support of the Italian Air Force. The conference Gala Dinner and IAASS Award Ceremony will take place at another beautiful site, *Villa Miani*, overlooking Rome. Please note that the abstracts have to be submitted on-line at www.congrex.nl/08a11 and that the **abstracts submittal deadline is 30 May**

Upcoming Events

IAASS Space Safety Academy – Introduction to Space Systems Safety Engineering
06-09 May 2008, Athlone Institute of Technology, Athlone (Ireland)

IAASS Space Safety Academy – Launch and Re-entry Safety Analysis Course
16-18 October 2008, ESA/ESRIN, Frascati -Rome (Italy)

IAASS Space Safety Academy – System Safety Engineering for Complex Software-Intensive Aerospace Systems, 20 October 2008, ESA/ESRIN, Frascati -Rome (Italy)

3rd IAASS International Space Safety Conference, *Building a Safer Space Together*
21-23 October 2008, Rome (Italy)
