

Proceedings of the Fourth IAASS Conference

Making Safety Matter

19–21 May 2010
Huntsville, Alabama, USA

Sponsored by
Canada Space Agency (CSA ASC)
Centre National d'Etudes Spatiales (CNES)
European Space Agency (ESA)
National Aeronautics and Space Administration (NASA)
Japan Aerospace Exploration Agency (JAXA)

European Space Agency
Agence spatiale européenne

Programme Committee

T. Sgobba (Chair), IAASS President
B. O' Connor (Co-Chair), NASA
J. Bosma (Co-Chair), ESA
N. Takeuchi (Co-Chair), JAXA

Members:

A. Abiodun (NG)	P. Kirkpatrick (US)	D. Rogers (US)
F. Alby (FR)	B. Lazare (FR)	I. Rongier (FR)
W. Ailor (US)	N. Leveson (US)	G. Ruff (US)
F. Allahdadi (US)	A. Larsen (US)	M. Saemisch (US)
M. Azeev (RU)	R. Malone (US)	S. Simpson (US)
D. Bohle (DE)	Y. Marshall (US)	K-U. Schrogl (AT)
V. Chang (CA)	T. Masson-Zwaan (NL)	C. Shivers (US)
M. Ciancone (US)	D. Mikula (US)	A. Soons (NL)
V. Feng (US)	R. Molina (SP)	K.R. Sridhara Murthi (IN)
M. Ferrante (IT)	C. Moura (BR)	C. Stewart (US)
D. Finkleman (US)	A. Menzel (DE)	J. Stoltzfus (US)
J. Frost (US)	M. Nati (IT)	R. Stuart (US)
J. Fragola (US)	S. Newman (US)	M. Surber (US)
G. Gafka (US)	G. Ortega (SP)	J-P Trinchero (FR)
H. Garcia (US)	M. Pedley (US)	N. Takeuchi (JP)
P. Gaudenzi (IT)	T. Pfitzer (US)	M. Trujillo (ES)
G. Goh (CN)	J. Pelton (US)	W. Vantine (US)
J. Hatton (UK)	G. Reitz (DE)	P. Vorobiev (RU)
A. Herd (UK)	L. Ren (CN)	J. Wade (US)
R. Jakhu (CA)	R. Repcheck (US)	P. Wilde (US)
J. Jeevarajan (US)	N. Ridzuan (MY)	S. Wolf (US)

Publication

Proceedings of the Fourth IAASS Conference 'Making Safety Matter'
Huntsville, Alabama, USA
(ESA SP-680, September 2010)

CONTENTS

Plenary Session: Part I

Chairs: P. Kirkpatrick, F. Allahdadi

Keynote Speaker

Cooperative Space Situational Awareness
S. Daniels

Plenary Session: Part II

Chairs: Y. Marshall & A. Soons

Report on the International Interdisciplinary Congress on Space Debris
R. Jakhu

Session 1: Space Debris - Part I

Chairs: F. Alby & J. Pearson

Design for Assured Safe Jettison Operations
A. Herd & M. Shea

Space Debris and the Cost of Space Operations
W. Ailor, J. Womack, G. Peterson & E. Murrell

Session 2: Regulations and Standards for Safety - Part I

Chairs: R. Jakhu & T. Masson-Zwaan

The French Space Operation Act: Technical Regulations
J.P. Trinchero & B. Lazare

Session 3: Safety Critical Software Design and IVV

Chairs: N. Leveson & I. Rongier

Is Integrated Modular Avionics a Solution for ATV like Spacecraft Control?
O. Boudillet, D. Dalemagne & T. Peron

Safety Critical Systems Certification: Tool Qualification for Hardware and Software
A.J. Kornecki, J. Voelmlé & J. Zalewski

Additional Paper

Software Configuration Management for Safety-Related Applications in Space Systems: Extending the Application of the USAF 8-Step Method

C.W. Johnson

Session 4: Space Materials Safety - Part I

Chairs: M. Pedley & H. Garcia

Got Mercury?

V.E. Meyers, J.T. McCoy, H.D. García, & J.T. James

Reduced Toxicity, High Performance Monopropellant at the U.S. Air Force Research Laboratory

T.W. Hawkins, A.J. Brand, M. McKay & M. Tinnirello

Composite Overwrapped Pressure Vessel (COPV) Stress Rupture Testing

N.J. Greene, R.L. Saulsberry, M.R. Leifste et al.

Session 5: Designing Safety into Space Vehicles - Part I

Chairs: Y. Marshall & N. Takeuchi

Risk Mitigation Approach to Commercial Resupply to the International Space Station

D.S. Koons, C. Schreiber, F. Acevedo & M. Sechrist

Safety Considerations in Design of Spacecraft Hatches

M.L. Ciancone & G.W. Johnson

Insights from the Altair Lunar Lander Risk Informed Design Process

B.F. Putney, R. Rust, S. Winter et al.

Design for Minimum Risk

J. Wetherholt & T.J. Heimann

Session 6: Safety of Extravehicular Activities

Chairs: M. Surber & A. Larsen

Plasma Hazards and Acceptance for International Space Station Extravehicular Activities

T. Patton

Positive Voltage Hazard to EMU Crewman from Currents through Plasma

L. Kramer, D. Hamilton, R. Mikatariyan et al.

Hubble Space Telescope Servicing Mission Four (HST SM4) EVA Challenges for Safe Execution of STS-125

R.P. Dedalis, W.H. Hill, K. Bergh Rice & A.M. Cooter

Prediction, Measurement, and Control of Spacecraft Charging Hazards on the International Space Station (ISS)

S. Koontz, J. Alred, A. Ellison et al.

Session 7: Organisational Culture and Safety - Part I

Chair: N. Leveson

A Silent Safety Program

J.R. Goodin

Technical Excellence and Communication, the Cornerstones for Successful Safety and Mission Assurance Programs

R.W. Malone & J.M. Livingston

The FAA's Approach to Quality Assurance in the Flight Safety Analysis of Launch and Reentry Vehicles

D.P. Murray & A. Weil

Session 8: Launch Range Safety (Current and Future) - Part I

Chair: T. Pfitzer

Do Mission Rules Induce Too Much Risk?

J.M. Haber

United States Risk Acceptability and Risk Analysis Guidelines: RCC 321

J.M. Haber & P. Rosati

Session 9: Space Operations Safety - Part I

Chairs: A. Menzel & V. Feng

Design in Operations Hazard Controls – Proposal for Design Criteria Assuring Robust Feedback to Crew

A. Herd, V. Favia, G. Maas & M. Boehme

The End-To-End Safety Verification Process Implemented to Ensure Safe Operations of the Columbus Research Module

J. Arndt & J. Kreimer

Temporal Considerations in Mission Safety Decision Making – An International Space Station Case Study Perspective

A. Herd

ATV Engineering Support Team Safety Console Preparation for the Johannes Kepler Mission

R. Chase & L. Oliefka

Session 10: Probabilistic Risk Assessment

Chairs: G. Gafka & S. Simpson

A Probabilistic Approach for Quantifying Radiation Risk in Safety Critical Systems for Non-Radiation Hardened Spacecraft

P.A. Boeder, C.A. Steagall & S.L. Koontz

Session 11: Safety Risk Assessment and Management - Part I

Chairs: C.H. Shivers

Challenges in Qualitative Risk Assessments of Space Systems
T.L. Hardy

Modeling and Hazard Analysis Using STPA
T. Ishimatsu, N. Leveson, J. Thomas et al

Risk-Informed Decision Making: Application to Technology Development Alternative Selection
H. Dezfuli, G. Maggio & C. Everett

Safety Requirements for Human Rated Space Systems
M. Trujillo & T. Sgobba

Session 12: Lessons Learned from Accidents

Chairs: Y. Marshall & J. Bosma

Evaluating Failures and Near Misses in Human Spaceflight History for Lessons for Future Human Spaceflight
S. Barr

"It Can Bust at Any Seam": Lessons for Deep Space Flight from Mawson's 1911-1914 Australasian Antarctic Expedition
P.S. Wallace

Quality and Safety Matter
W.D. Manha

Building on the Past – Looking to the Future: Part 2: A Focus on Expanding Horizons
S.K. Nash, R.B. Rehm, T.K. Wong et al.

Pressure Relief Devices
W.D. Manha

Session 13: Payload Safety

Chairs: M. Azeev & F. Festa

Safety Assessment of Multi Purpose Small Payload Rack (MSPR)
Y. Mizutani, S. Takada, K. Murata et al.

Computer Aided Safety Assessment (CASA) Tool for ISS Payloads
J. Hochstein & F. Festa

Biosafety in Space Vehicles and Habitats
W. Wong, D. Arneson & D. Pierson

International Cooperation in the Field of International Space Station Payload Safety: Overcoming Differences and Working for Future
Y. Nakamura, M. Ozawa, Y. Takeyasu et al.

Session 14: Private Spaceflight Safety

Chairs: R. Repcheck & N. Ridzuan

Towards Regulating Sub-Orbital Flights – An Updated EASA Approach
J.-B. Marciacq, Y. Morier, F. Tomasello, et al.

Safety Criteria for the Private Spaceflight Industry
A. Quinn & P. Maropoulous

Safety And Promotion in the Federal Aviation Administration – Enabling Safe and Successful Commercial Space Transportation
J.R. Repcheck

Session 15: Spacecraft Re-entry Safety - Part I

Chairs: R. Molina & F. Alby

ELECTRA © Launch and Re-Entry Safety Analysis Tool
B. Lazare, M.H. Arnal, C. Aussilhou et al.

Assessment of the ATV-1 Re-Entry Observation Campaign for Future Re-Entry Missions
T. Lips, S. Löhle, T. Marynowsky et al.

Session 16: Space Debris - Part II

Chairs: F. Alby & W. Ailor

EDDE, ElectroDynamic Debris Eliminator: New Frontiers in Space Traffic Management
J. Pearson, E. Levin, J. Oldson & J. Carroll

Debris Resistive Acoustic Grid Orbital Navy Sensor (DRAGONS)
J. Davis, A. Roush, K. Rodrigo et al.

NASA's New Orbital Debris Engineering Model, ORDEM2010
P.H. Krisko

Session 17: Nuclear Safety for Space System

Chairs: M. El-Genk & F. Allahdadi

Historical Insights for the Safe Launch of Radioactive Materials
G.D. Wyss, G.F. Polansky & F. Allahdadi

On End-of-Life Storage Options for Space Reactor Power Systems
M.S. El-Genk

Safety and Nuclear Power Sources for Space Systems
C.C. Ségalas & G.R. Schmidt

Pebble Bed Reactor Power System for Lunar Outposts: Long Operation Life and End-of-Life Storage
M.S. El-Genk & T. Schneider

Session 18: Battery and Power System Safety

Chair: P. Kirkpatrick

Critical Review of Commercial Secondary Lithium-Ion Battery Safety Standards

H.P. Jones, J.T. Chapin & M. Tabaddor

Electrical Safety for Human Space Flight Payload Hardware

J.A. Runnells

Session 19: Space Based Safety Critical Systems

Chair: D. Bohle

Safety Cases for Global Navigation Satellite Systems' Safety of Life (SOL) Applications

C.W. Johnson & A. Atencia Yépez

Validation & Safety Constraints: What We Want to Do...What We Can Do

A. Atencia Yépez, B. Martín Peiró & S. Bory

Session 20: Regulations and Standards for Safety - Part II

Chairs: T. Masson-Zwaan & J. Pelton

Safety and Liability Aspects of Solar Power Satellites

R.S. Jakhu & D. Howard

Session 21: Near Earth Object (NEO) Safety Risk

Chairs: J. Bosma & W. Ailor

The Near-Earth Object Segment of ESA's Space Situational Awareness Programme

D.V. Koschny, G. Drolshagen & N. Bobrinsky

Risk Analysis after Asteroid Impact with Earth

G. Ortega, I. Huertas, F. Cremaschi & S. Weikert

Quantifying the Destructive Effects of NEOs Encounters with Earth - Maximum Probable Loss

G. Ortega & I. Huertas

Session 22: Launch Range Safety (Current and Future) - Part II

Chair: C. Botts

Launch Risk Acceptability Considering Uncertainty in Risk Estimates

J.D. Collins & S.L. Carbon

Session 23: Space Traffic Management and Control - Part I

Chairs: K-U. Schrogl & D. Finkleman

A Critical Examination of Current On-Orbit Satellite Collision Risk Analysis

Under the Constraints of Public Data

B. Whitworth, M. Moon, W. Pace & R. Baker

Session 24: Designing Safety into Space Vehicles - Part II

Chair: S. Garon

The Triangle of the Space Launch System Operations
É. Fayolle

Designing for Reliability and Safety. The Ares Launch Vehicles Paradigm Change
F. Safie & G. Maggio

Session 25: Space Materials Safety - Part II

Chairs: J. Stoltzfus & G. Ruff

Heat Affects of Promoters and Determination of Burn Criterion in Promoted Combustion Testing
K.M. Sparks, J.M. Stoltzfus, T.A. Steinberg & D. Lynn

Promoted Combustion Test Data Re-Examined
M. Lewis, N. Jeffers & J. Stoltzfus

Test Method for Quantifying the Ignitability of Metallic Materials
G. Chiffolleau, J. Hooser, N. Linley et al.

Session 26: Spacecraft Re-entry Safety - Part II

Chairs: R. Molina & W. Ailor

'SCARAB-M' A Tool for Destructive Entry Analysis into Martian Atmosphere
G. Koppenwallner & B. Fritsche

DEBRISK
P. Omaly & W. Dieudonné

Session 27: Safety Risk Management - Part II

Chairs: C. Shivers & S. Simpson

Safety Assurance at Space Test Centres: Lessons Learned
R. Alarcon Ruiz, S. O'Neil & R. Prades Valls

Risk Presentation Using the Three Dimensions of Probability (Likelihood) Severity, and Level of Control
C. Watson

Subsystem Hazard Analysis Methodology for the ARES I Upper Stage Source Controlled Items
M.S. Mitchell & D.R. Winner

The Dark Side of Quantitative Analyses
J.R. Goodin

Session 29: Designing Safety into Space Vehicles - Part III

Chair: D. Mikula

NASA Human-Rating Requirements
F. Groen, & M. Stamatelatos

A Practical Top-Down Approach to Assess Programmatic Risk for Projects
with Low-TRL Elements
J.R. Fragola, E.L. Morse, B. Putney & J. DiApice

Black Box for Reusable Launch Vehicles: Considerations and Potential Flight Test
N. Demidovich, W. Ailor & N. Brown

Tools and Techniques for a Systematic Approach to Safe Rendezvous and Proximity Operations
R. Taylor & B. Rishikof

Protection from Induced Space Environments Effects on the International Space Station
C. Soares, R. Mikatariyan, C. Steagall et al.

Session 30: Organisational Culture and Safety - Part II

Chairs: A. Soons & D. Knutson

Safety Climate Management: A Method to Positively Shape a Safety Culture for
Success in the Aerospace Industry
K. Neubauer & E. Shea

Entity Model Based Quality Management: A First Step Towards High Reliability
Organization Management
S. Engelbrecht, Chr. Radestock & D.K.H. Bohle

Session 31: Space Materials Safety - Part III

Chairs: M. Pedley & J. Stoltzfus

The Role of the Promoted Combustion Test in High-Strength Burn-Resistant,
Alloy Development for Rocket Engine Applications
M.A. Jacinto

The Increased Flammability of Metallic Materials in Reduced Gravity Environments
D. Lynn, O. Plagens, M. Castillo et al.

Nondestructive Evaluation and Monitoring Results from COPV Accelerated
Stress Rupture Testing
R.L. Saulsberry, N.J. Greene, C.E. Banks et al.

Session 32: Spacecraft Re-entry Safety - Part III

Chair: P. Wilde

Simulation of the ATV Re-Entry Observations
B. Bastida Virgili, H. Krag, T. Lips & E. De Pasquale

The Reentry Safety of H-II Transfer Vehicle (HTV)
M. Ozawa, H. Sasaki & T. Yoshihara

Session 34: Space Operations Safety - Part II

Chairs: V. Feng & N. Takeuchi

The Application of Resilience Engineering to Human Space Flight
C.W. Johnson, A. Herd & M. Wolff

Payload Operations Safety
M. Moore

Session 35: Human Factors and Performance for Safety

Chairs: D. Rogers & M. Trujillo

Human Factors Engineering in Designing the Passengers' Cockpit of the Malaysian Commercial Suborbital Spaceplane
N. Ridzuan Zakaria, A. Mettauer, J. Abu et al.

Session 36: Regulations and Standards for Safety - Part III

Chairs: R. Jakhu & T. Masson-Zwaan

The French Space Operation Act: Scope and Main Features. Introduction to the Technical Regulation Considerations about the Implementation in the Launcher Field
F. Cahuzac

An International Civil Aviation and Space Organization
R. Jakhu, T. Sgobba & M. Trujillo

Global Space Safety Regulations and Standards: The Conflicting Perspectives of the 'Merchants', the 'Guardians' and the 'Civilian' Space Agencies
N.J. Pelton

Session 37: Space Traffic Management and Control - Part II

Chairs: D. Finkleman & K-U Schrogl

Two Years of International Cooperation on Conjunction Mitigation
T.S. Kelso

Evaluating Orbital Collision Risk, Review of Methods and Failure Scenarios
M. Taheran

Session 38: Launch Range Safety (Current and Future) - Part III

Chairs: C. Moura & J. Collins

A Four Degree of Freedom Malfunction Trajectory Analysis for Public Safety
P.D. Wilde, A.O. Weil & C. Draper

Japanese Safety Requirements for Expendable Launch Vehicle Payload
M. Miki, R. Sekita, M. Wada et al.

Session 39: Space Operations Safety - Part III

Chairs: F. Festa & N. Takeuchi

Process Assured Corrective Action - Human-in-the-Loop Case Studies
A. Frechette, M. Trujillo, S. Evetts et al.

Operation Safety Activities for JEM System and Payload Operation
S. Takada, Y. Iwata & M. Kato

Posters

Nuclear Safety for Space Systems
E. Offiong

Corrosion - Degradation of Structure Negating Original Structural Analysis
J.R. Goodin

Fracture - An Unforgiving Failure Mode
J.R. Goodin

Impacts of Culture on International Negotiations
J.R. Goodin

Risk Creep - The Normalization of Deviance
J.R. Goodin
